Rob Mahoney (UK) email: RobMahoney@compuserve.com

Robin A. McLaren (UK) email: Robin_McLaren@compuserve.com

Daniel Roberge, (Canada) email: Daniel.Roberge@mrnfgouv.qc.ca

Uzo Okafur (also vice chair of WG3.3) uzookaf@mweb.com.na

Jes Ryttersgaard (DK) email: JR@kms.dk

Jens Hollænder (DK) email: JEH@kms.dk

Tarja Myllymäki (SF) email: tarja.myllymaki@nls.fi

Jan Bares (CZ) janb@imip.mepnet.cz

Specific projects and outputs

Based on cooperation with other WG and other Commisions WG3.1 will:

- Report on good practice of Spatial Information within e-Government supporting citizens in participatory democracy

- Facilitate experience exchange

- Show consequences for administration and citizens of SIM and LBS accessible on the web

- Provide recommendations to the way we go within SIM and LBS (as part of e-Government solutions)

- Provide links to information and minutes of workshops

- (Work out a Web-demo, if supported by OGC, ESRI or other sponsors)

Detailed workplan WG 3.1

2002-2003

**Encourage speakers and papers to FIG meetings.
examples of e-Government projects and programs where
SIM is an important part.**

- Papers and speakers to GIS 2002 symposium in ISTANBUL

- Papers and speakers to FIG WW in Paris 2003

- Papers and speakers to FIG Commission 3 Annual Meeting
2003 in Morocco

(Done – but not stored by one link)

Detailed workplan WG 3.1

2003-2004

Links to e-Government web sites where SIM is an important part.

- To be prepared by the working group members by November 2003 (Partially done – need updates, supplements from WG members)

- Research projects from EU 6FP to be included in the listing

- Papers/presentation from other conferences to be included in the listing

- Select examples for closer assessments

- Criteria to be set for the detailed study

- Sub – work group to be responsible for the study

(avoid double work - EU, UN and World Market Research Centre)

(await output from Warsaw June, Vienna Oct, Jakarta Oct)

Detailed workplan WG 3.1

- Local e-Government UK www.localegov.gov.uk

Adjustments of WG 3.1 workplan

- Avoid double work
- Focus on the user side, democracy, access to information
- Not focus on technical part
- Focus on e-Citizen
- Trace the general developments and trends
- Give an overview and some best practice examples
- Report to FIG council and FIG society
