

# NZ Surveyor Perspectives on opportunities for improvement in the NZ Cadastral Survey System

Nick Stillwell, Lead Consulting Surveyor  
Survey and Spatial New Zealand

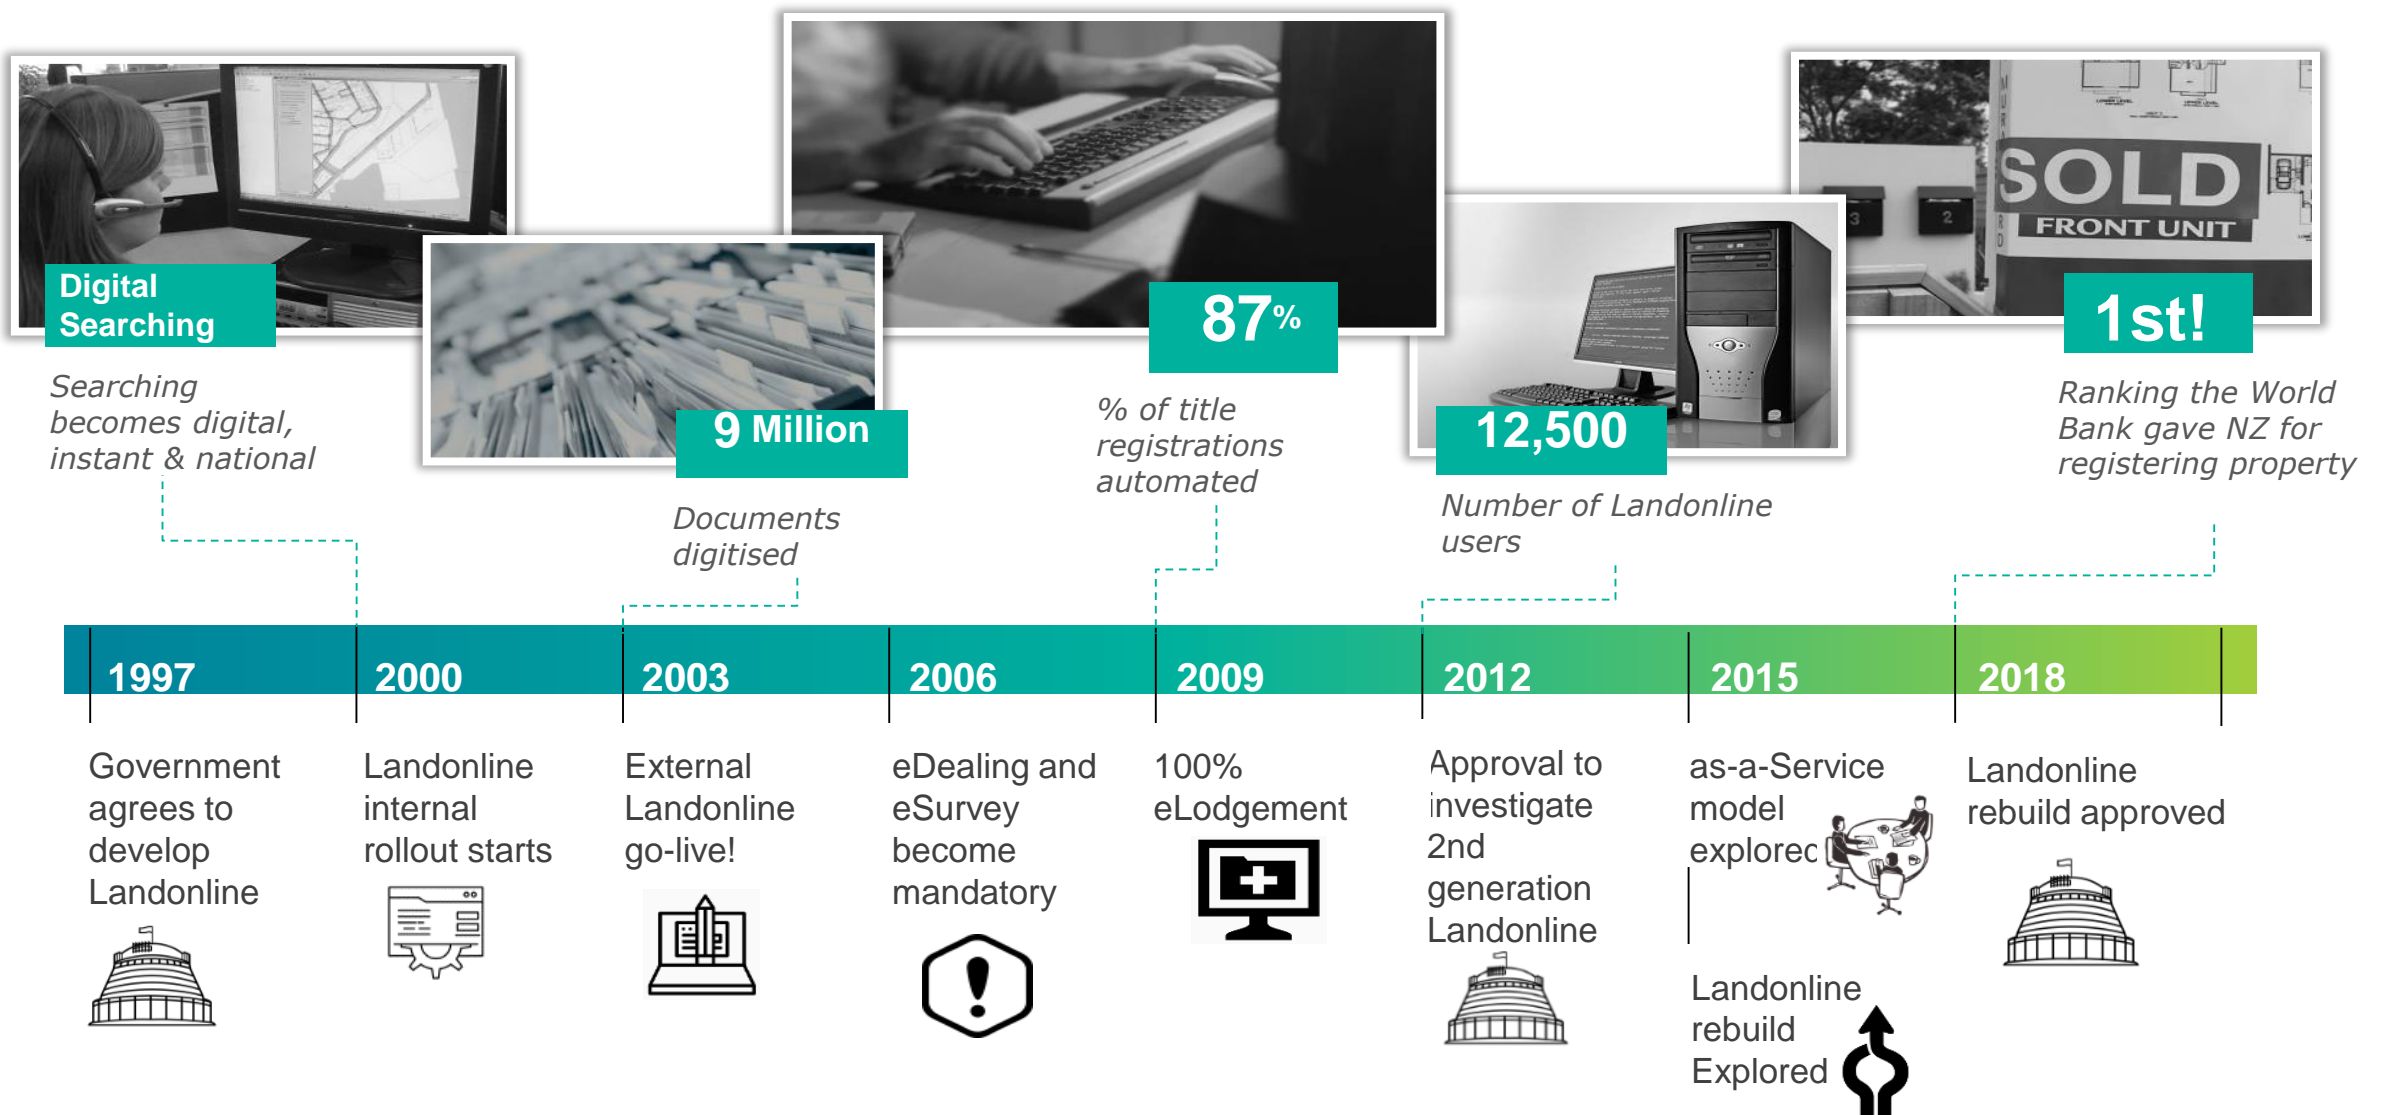

# Outline

- NZ Cadastral Survey System Context
- Surveyor Engagement
- Common Themes

# CONTEXT

# Landonline History

# LINZ Drivers for rebuilding Landonline

1

*To ensure the continuity of service and integrity of property information*

2

*It is difficult to add new functionality that customers are waiting for*

3

*New types of data can't be easily integrated with other information sources*

# How will LINZ get there?

1

*Rebuild  
Landonline  
incrementally*

2

*Use in-house LINZ  
resource and New  
Zealand IT expertise*

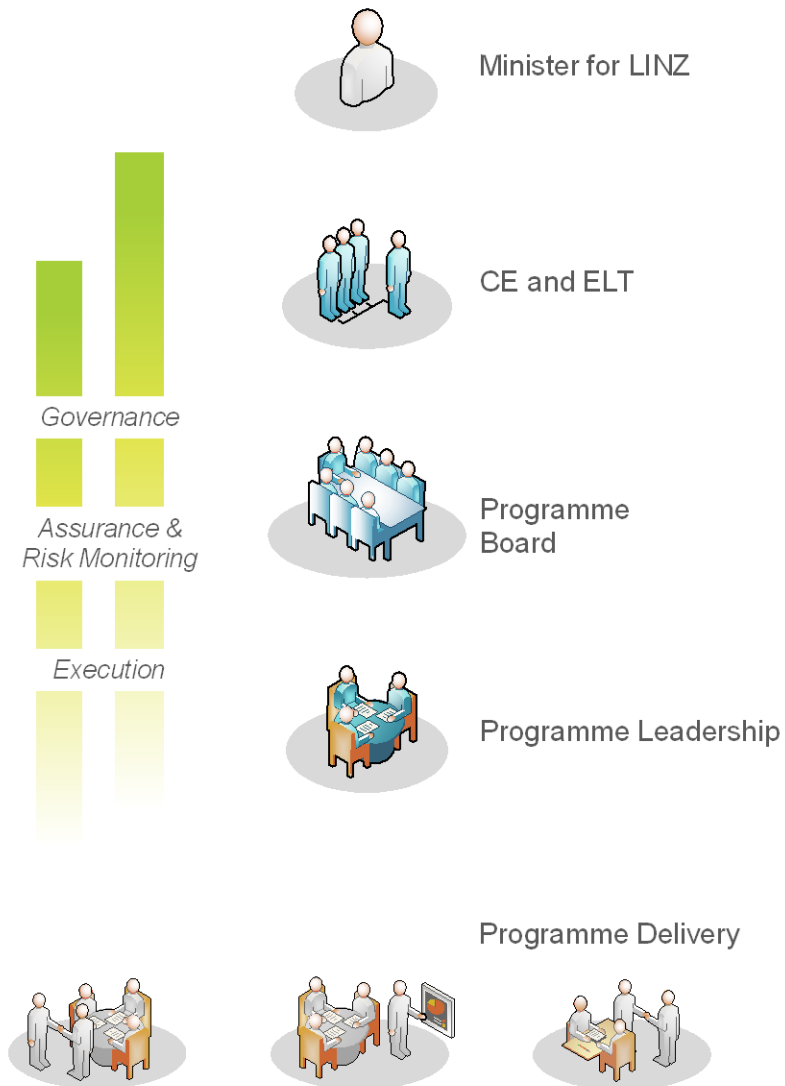

3

*Keep customers at  
the heart of  
development*

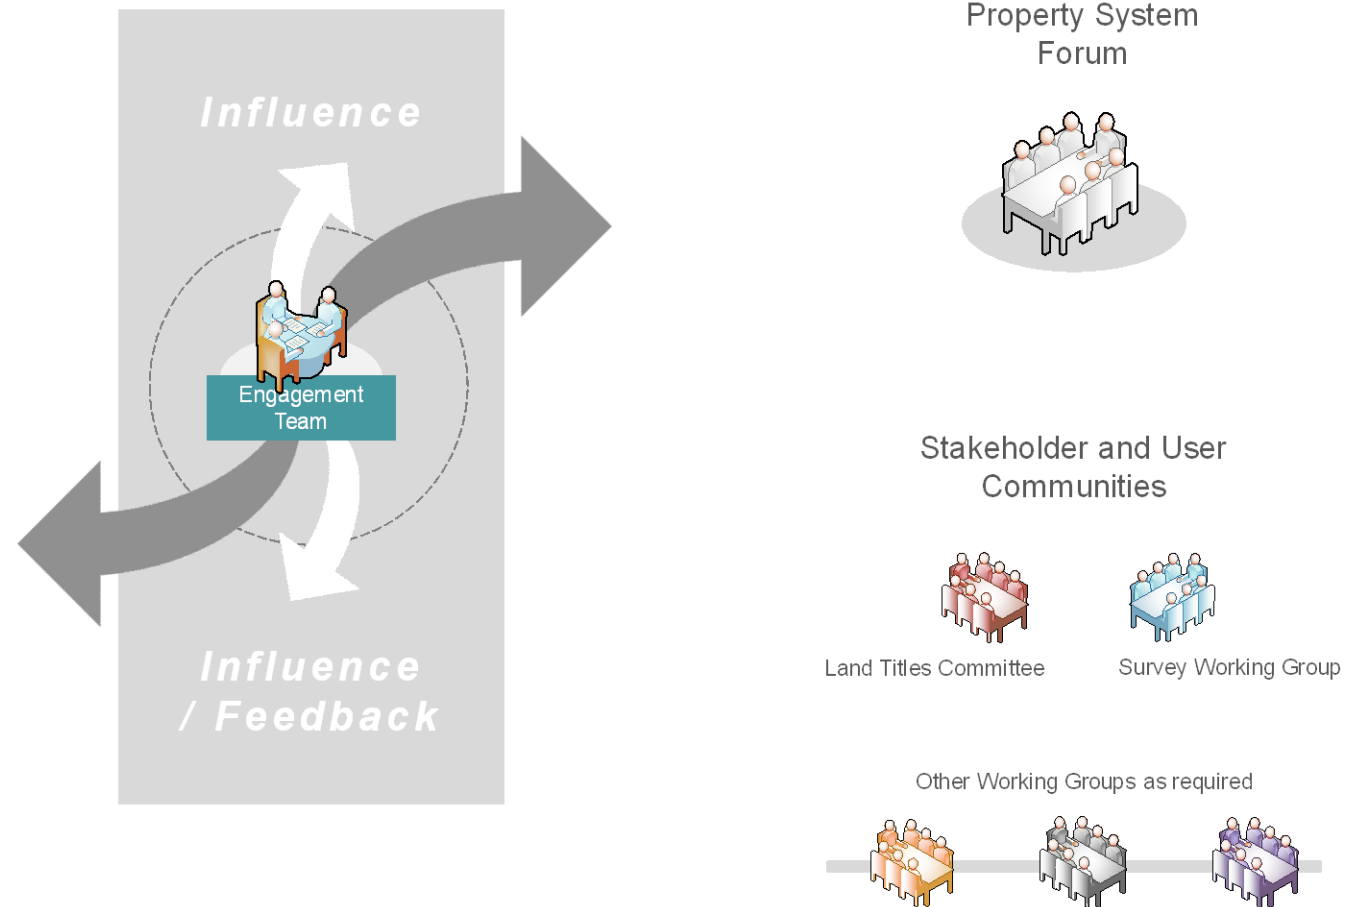

# SURVEYOR ENGAGEMENT

# Step External Engagement – Governance Level

## THE PROGRAMME

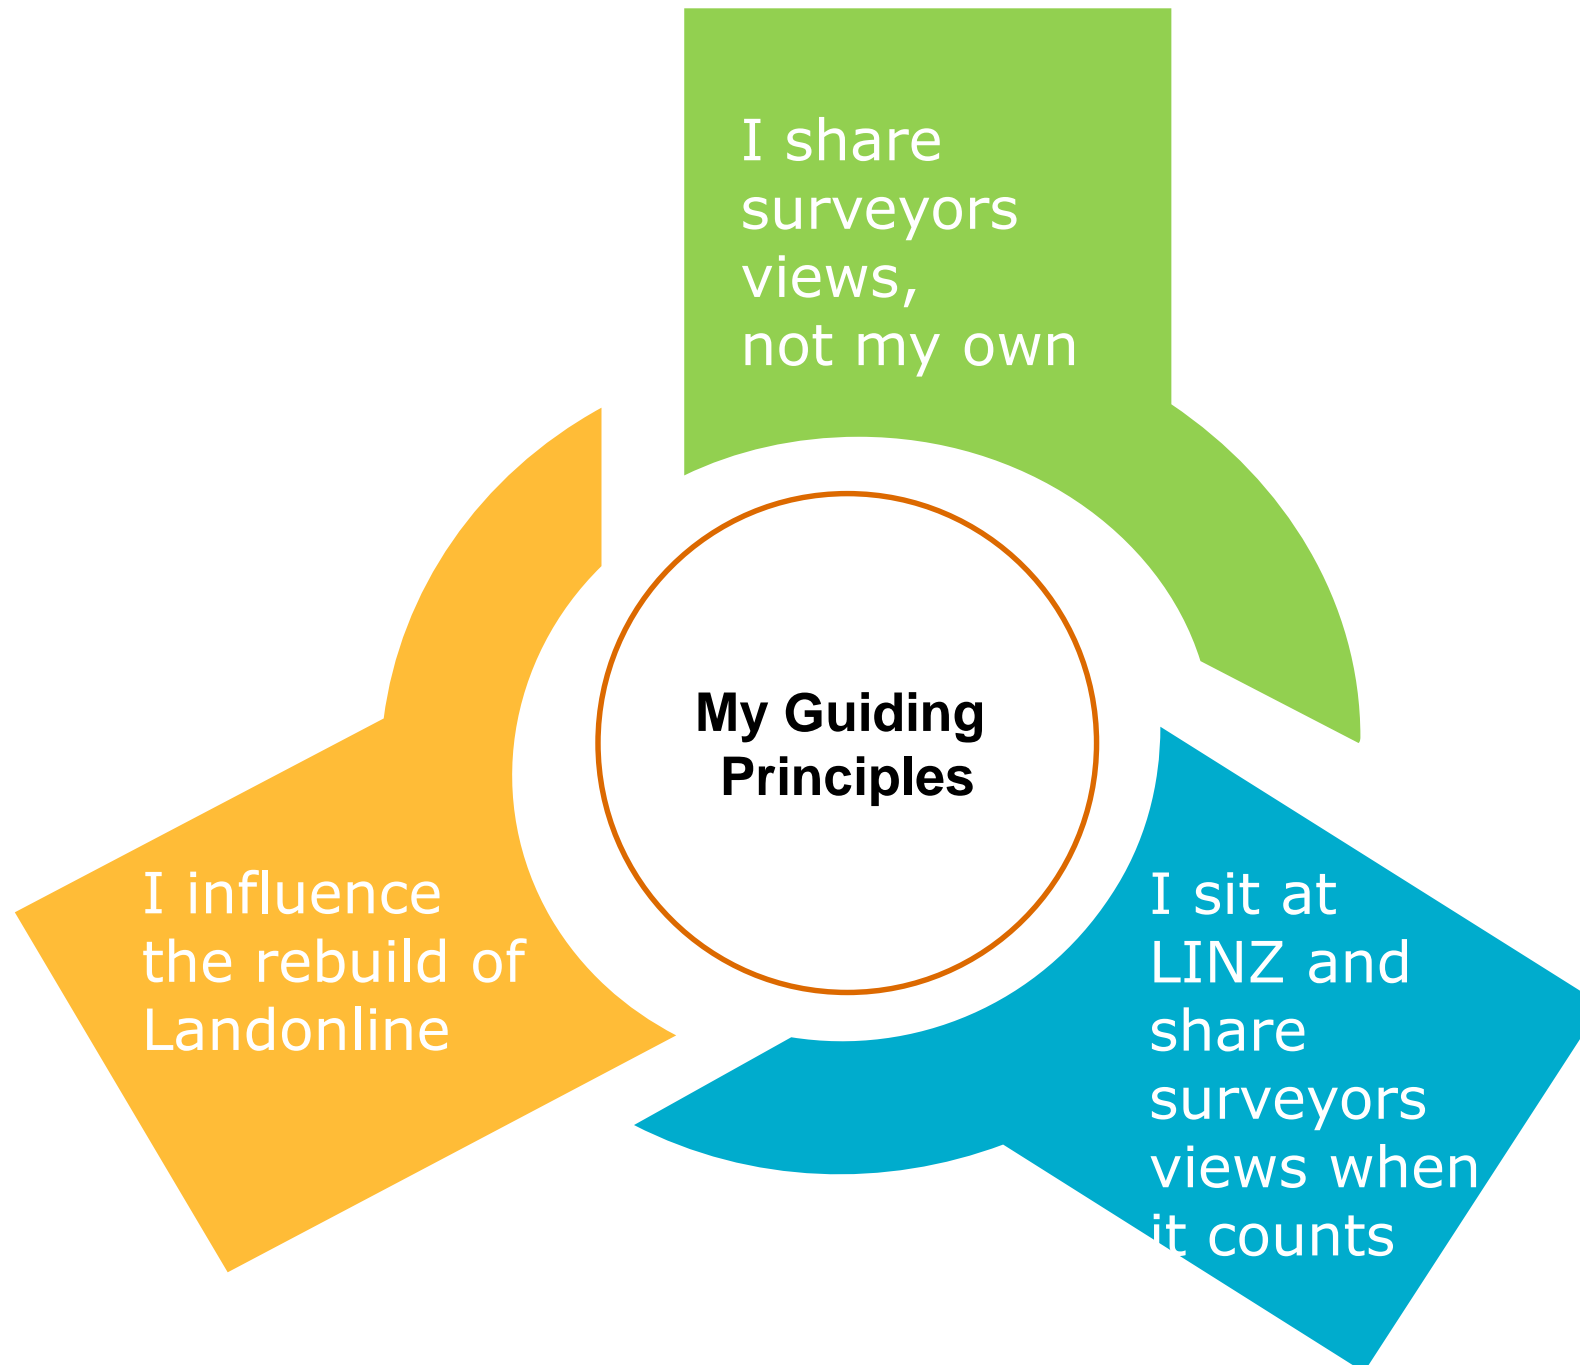

## EXTERNAL STAKEHOLDERS

# Consulting Surveyor - Principles

- **Lead Consulting Surveyor position established**
- **Feedback sought on issues from 700 surveyors around New Zealand**
- **Common themes identified with Survey Working Group**
- **Feedback provided to LINZ before business case**
- Engagement with surveyors as thinking evolves
- Feedback provided to LINZ throughout the programme

# FEEDBACK THEMES

# Feedback Themes

**Issues working  
between systems  
must be resolved...**

**The current CSD  
plan needs  
improvement...**

**Search needs  
to be more  
intuitive...**

**We need one  
good set of  
validation  
tools...**
